Alienware 15 Laptop

Pure Alienware Essentials

Alienware 15 delivers gaming-first performance in a durable, modern design. Built for those seeking high value without compromising on quality, Alienware 15 balances performance and simplicity to deliver the full Alienware experience.

Essentials-only aesthetic

Comfortable, efficient laptop designed without a thermal shelf, increasing mobility without sacrificing performance.

Reliable performance

Experience consistent visuals with smooth frame rates, even when playing demanding AAA titles on high settings.

Thermal efficiency

An array of 2,163 air inlets provide optimal air intake, directing airflow to core components where it matters most.

Easy to upgrade

Built with user-replaceable SO-DIMM memory and SSDs, so users can upgrade to suit their evolving needs.

Expansive views

A 15.3-inch 16:10 WUXGA (1920x1200) 165Hz display delivers engaging visuals and fluid gameplay.

Alienware 15 Laptop

Form meets function

Sleek and durable

The new Nova Black coating— paired with durable polycarbonate resin – delivers a premium metallic sheen. It's not just for show, this material has passed our rigorous testing, ensuring proven resilience.

Thoughtful engineering

The streamlined design removes the rear thermal shelf while retaining advanced thermal support. A tower hinge optimizes rear exhaust airflow – a calculated decision that prioritizes performance without sacrificing portability or structural integrity.

Fluid contours

Smooth, seamless lines offer a sleek, modern look, while contoured edges ensure a comfortable grip. The pronounced V-rail allows easy opening, and the rounded palm rest adds comfort during any gaming session.

Robust hinge design

Allows for a full 180-degree opening, enabling you to lay the display flat or adjust for ergonomic comfort.

Proven resilience

Like all Alienware products, Alienware 15 was rigorously tested to withstand the demands of daily use and transport.

Alienware 15 laptop hinges undergo rigorous testing to support **up to 20,000 open and close cycles.**¹

Alienware 15 laptops can withstands accidental liquid spills of **up to two ounces.**²

Alienware 15 laptops are designed to stay running after drops of **up to 18 inches on all six faces and four corners.**³

Alienware 15 Laptop

Precision cooling and advanced thermals for maximum efficiency

Our advanced cooling technology, Alienware Cryo-tech™, is designed to maintain system stability even during the most demanding sessions. On configurations with NVIDIA® GeForce RTX™ 5050 and 5060 GPUs, a Cryo-Chamber structure is designed for greater air intake and increased airflow.

Intentional airflow

Intake vents below the laptop and above the keyboard direct cool air where it matters most, while a dedicated exhaust expels hot air from critical components.

Quiet and cool

Dual fans, with a total of 146 blades, draw cool air from the top and bottom, through three copper heat pipes, while expelling heat through a single rear exhaust, enabling performance and stability.

Built to last

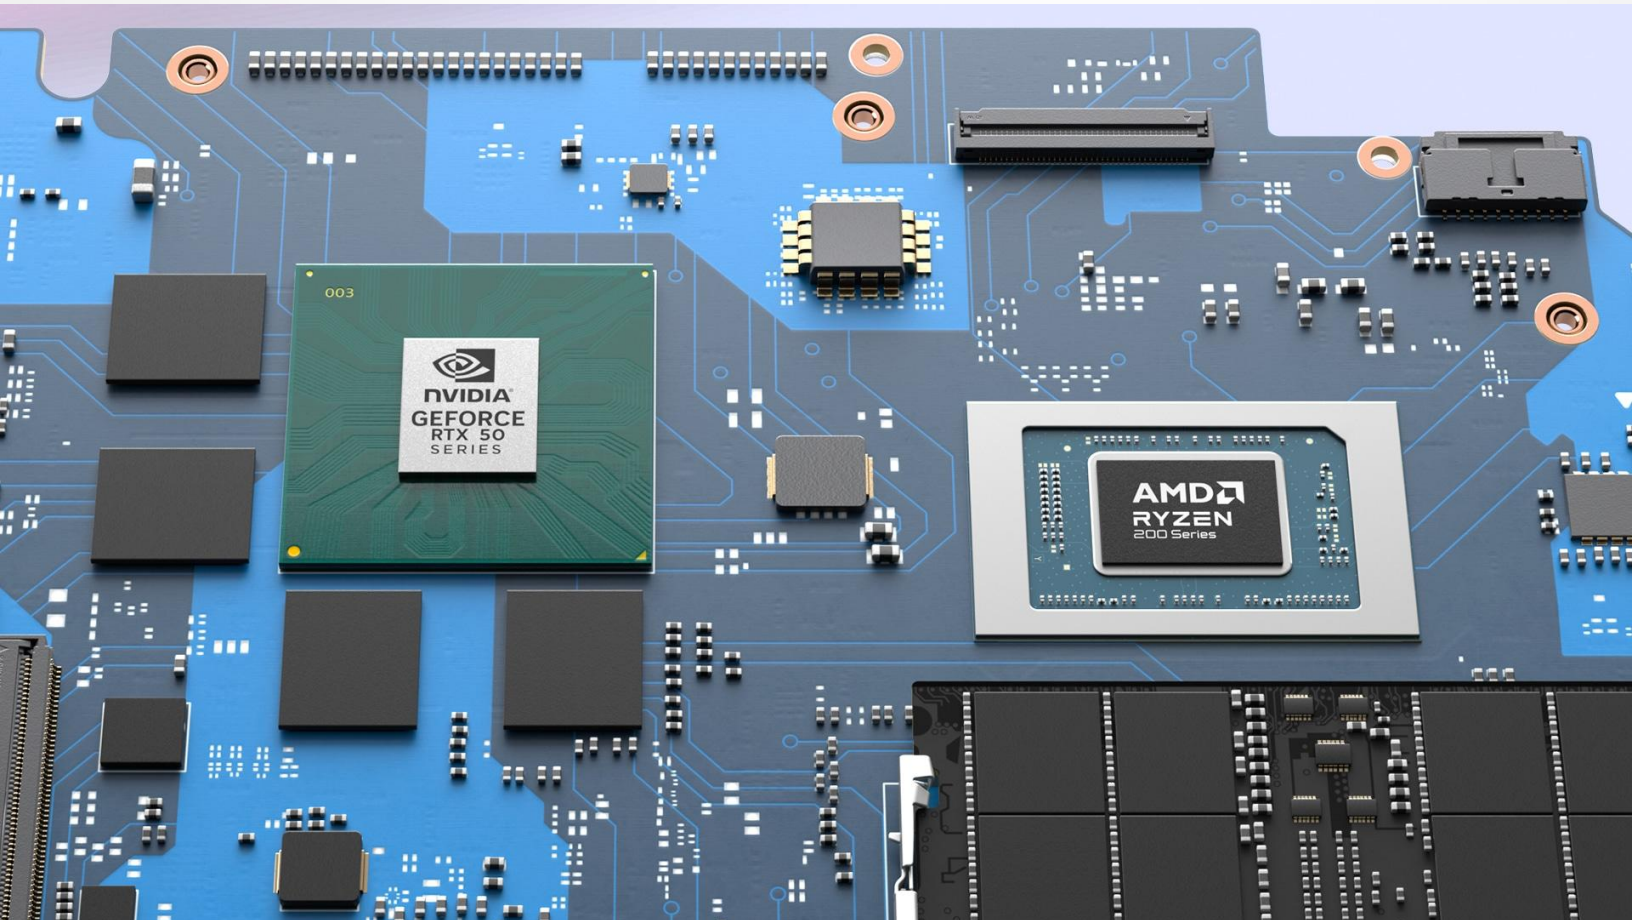

Efficient thermal design protects internal components and extends the life of the system.

Alienware 15 Laptop

Powering your play and day

The perfect balance of AMD Ryzen™ 200 Series + range of NVIDIA® GeForce RTX™ options (from 3050, 4050, 5050, 5060) align system capabilities with your performance and budget needs. Ready to run your favorite games seamlessly with up to 110W Total Performance Power, and more than enough for work and everyday tasks.

Up to 110W

TPP

Total Performance Power⁴ is the combined maximum of TGP and TDP, enhancing overall performance across all you do.

Up to 85W

TGP

Total Graphics Power⁵ means higher GPU performance with more realistic gameplay.

Up to 30W

TDP

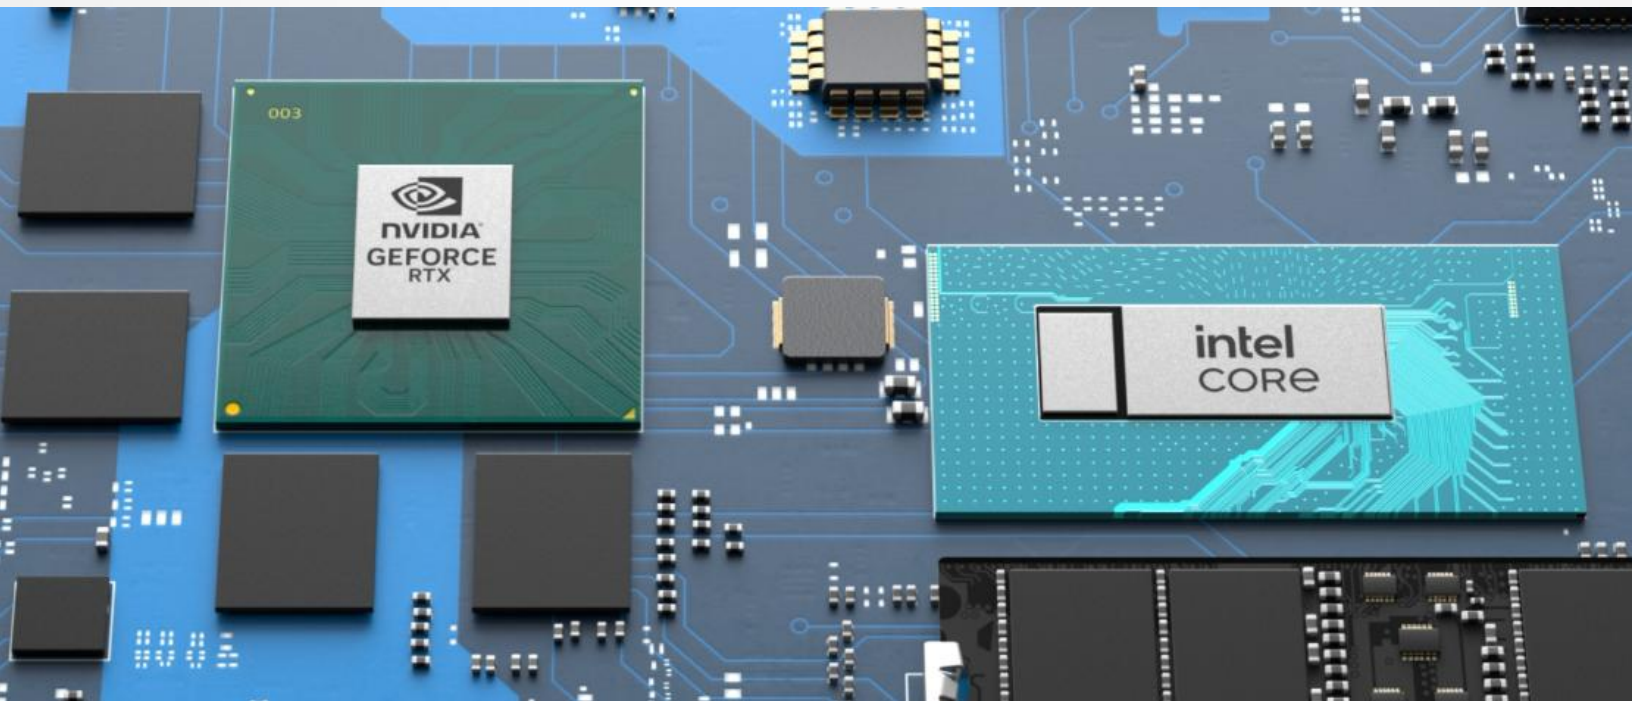

CPU Thermal Design Power⁶ means full power devoted towards processing tasks in real-time.

Reviewer's Guide

Alienware 15 Laptop

Encounter total gameplay immersion

Expansive and versatile display

See more and do more on the 15.3-inch WUXGA (1920x1200) display. With a 165Hz refresh rate, 300 nits of brightness, and a 16:10 aspect ratio, it offers crisper visuals and more vertical screen space than standard FHD (1920x1080).

Beyond gaming, the 720p HD webcam and dual array microphone ensure crystal-clear video and crisp audio for all your calls.

Alienware 15 Laptop

Comfort. Control. Effortless functionality.

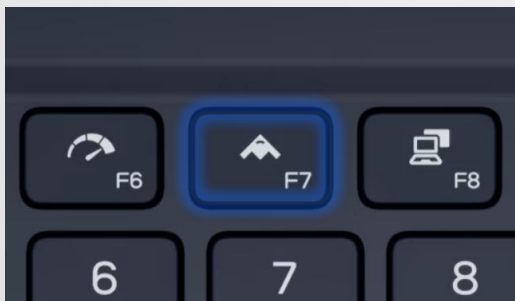

Command with confidence

Built for resilience and precision, the white-backlit keyboard is tested for up to 40,000 keystrokes⁷ and includes a dedicated number pad for effortless functionality, day or night.

Seamless navigation

Experience precise control with a large 4.53×3.15 in. multi-touch gesture touchpad, featuring integrated scrolling. Its soft-touch, fingerprint-resistant surface ensures a smooth, premium user experience.

Adaptable by design

Complementing the streamlined design of the Alienware 15, Stealth Mode can be activated with the F7 key, effortlessly switching from Performance to Quiet Mode.⁸ This feature delivers a discreet, low-noise experience for versatility.

Alienware 15 Laptop

Chassis Details

System Dimensions

Height (rear): 22.95 mm (.90 in.)
Height (front): 20.70 mm (0.81 in.)
Length: 250.30 mm (9.85 in.)
Width: 349.50 mm (13.76 in.)

Maximum weight: 2.25 kg (4.96 lbs)

Exterior Chassis Color and Finish

Nova Black, durable polycarbonate resin lid and bottom cover

Chassis Features

Based on Alienware's AW30 industrial design language
Cryo-Chamber⁹ on the bottom of the system enables focused airflow to core components
Pronounced V-rail front edge allows for easy opening of the lid for ergonomic approach to using the laptop
Robust hinge design supports full 180° opening

Engineered with Alienware Cryo-Tech™ cooling technology
Constructed with copper alloy thermal components

Display Options

15.3" WUXGA (1920 x 1200) 165Hz, sRGB 62.5%

Additional Display Specifications

16:10
300 nits brightness
AMD FreeSync™ Technology (on DA15265)

Battery Options

Lithium Ion (54 Whr, 4-cell) Battery with ExpressCharge, ExpressCharge Boost
Lithium Ion (70 Whr, 3-cell) Battery with ExpressCharge, ExpressCharge Boost

Integrated Camera

720p at 30 FPS HD camera with dual-array microphones

Keyboard Options

Alienware white backlit keyboard with 1.3 mm key travel

Touchpad Detail

Multi-touch gesture touchpad with integrated scrolling -
4.53 in x 3.15 in (115 mm x 80 mm)

Power Adapter Options

180W (standard) 7.4mm Barrel AC Adapter (for configurations with NVIDIA® GeForce RTX™ 5050 and 5060)
130W 7.4mm Barrel AC Adapter (for configurations with NVIDIA® GeForce RTX™ 4050 and 3050)

Core and Compute Details

AMD Ryzen™ 5 220 processor (22MB cache, 6 cores, up to 4.9 GHz)
AMD Ryzen™ 7 260 processor (24MB cache, 8 cores, up to 5.1 GHz)

Intel® Core™ 5 processor (Series 2) 210H (12MB cache, 8 cores, up to 4.80 GHz P-Core)

Intel® Core™ 7 processor (Series 2) 240H (24MB cache, 10 cores, up to 5.20 GHz P-Core)

Graphics* Options

NVIDIA® GeForce RTX™ 3050 laptop GPU, 6GB GDDR6
Max TGP: 70W
Dynamic Boost (full speed): 5W

NVIDIA® GeForce RTX™ 4050 laptop GPU, 6GB GDDR6
Max TGP: 70W
Dynamic Boost (full speed): 5W

NVIDIA® GeForce RTX™ 5050 laptop GPU, 8GB GDDR7
Max TGP: 85W
Dynamic Boost (full speed): 5W

NVIDIA® GeForce RTX™ 5060 laptop GPU, 8GB GDDR7
Max TGP: 85W
Dynamic Boost (full speed): 5W

Memory Options¹⁰

8GB (8GB x1) DDR5 5600MTs
16GB (16GB x 1) DDR5 5600MTs
32GB (32GB x1) DDR5 5600MTs

Memory Slots

2x DDR5 SO-DIMMs

Available Storage Options¹¹

512GB PCIe NVMe M.2 Gen 4 SSD
1TB PCIe NVMe M.2 Gen 4 SSD

Wireless Options

MediaTek MT7920 Wi-Fi 6 and BT 5.2 wireless card

External Chassis Connections

Right

(1x) Global headset jack
(1x) Type-C® USB 3.2 Gen 1 Port

Left

(1x) Power/DC-in Port
(1x) RJ-45 Ethernet
(1X) HDMI 2.1 (dGPU)
(2x) USB Type-A 3.2 Gen 1 Port
(1x) Type-C® Port (USB 3.2 Gen 2 with Power Delivery and DisplayPort™ 1.4a) with USB-C charging support (up to 100W)

Software

Operating System Options (Varies by Region)

Windows® 11 (64-bit) (Standard)
Windows® 11 Pro (64-bit)
Ubuntu® Linux® (P-RTS)

Alienware Command Center 6

- Game Library to manage titles from multiple services
- AlienFX supports full RGB values up to 16.8 million colors, keybinds and calibration settings on peripherals
- Power Management pre-sets or manual controls

RECOMMENDED ACCESSORIES

Alienware 25 320Hz Gaming Monitor – AW2525HM

25-inch 320Hz gaming monitor featuring a Fast IPS panel, vivid color accuracy and ultra-smooth visuals.

Alienware Tenkeyless Gaming Keyboard - AW420K

Compact Tenkeyless (TKL) form factor eliminates the 10-key numeric pad to reduce clutter and improve portability. Integrated cable routing allows for easy adaptability, and Cherry MX Red switches provide consistent high-performance gaming.

Alienware Dual-Mode Wireless Headset – AW520H

Experience immersive sound with Hi-Res certified drivers and Dolby Atmos® spatial audio support. All in a very comfortable and easy-to-adjust design.

Alienware Wireless Mouse – AW620M

Conquer gaming marathons with a wireless mouse that's crafted with 26,000 DPI, reliable connectivity, robust battery life, and a right-hand-focused shape.

Alienware 16 Backpack – AW5625P

Keep your gaming devices and accessories organized and protected with the perfect everyday backpack.
