

Razor-thin. Featherlight. No compromise.

XPS 13
DX13260

Our thinnest and lightest XPS laptop yet.*

XPS

XPS laptops are designed to be the best, with cutting-edge technologies, exceptional build quality, unique materials and powerful features. These laptops are not just tools, but an extension of our customers' lives.

Premium Design

Expertly crafted of premium materials like CNC aluminum and Gorilla® Glass 3, XPS laptops combine elegance and durability to create a laptop that's as beautiful as it is resilient.

Innovation

Innovation starts with XPS, where cutting-edge and first-to-market technologies, from displays to batteries to advanced thermal designs deliver sleek form factors, exceptional performance, and unmatched user experiences.

Ultimate mobility

XPS laptops are sleek, lightweight, and built for life on the go, offering unmatched portability and exceptional run time to power your ideas anytime, anywhere.

Easy to carry everywhere, unplugged.

Razor-thin and featherlight, it's our thinnest and lightest XPS laptop yet.* Easy to carry everywhere – in a backpack, tote or even one-handed from meeting to meeting. And with long battery life, it helps keep you productive on the go, wherever your day takes you.

Featherlight – starting at 2.2 lbs

Starting at just 2.2 pounds, the XPS 13 is our lightest* XPS yet. It won't weigh down your bag, so you are less fatigued during frequent travel or commuting.

Fits where others can't

The XPS 13 is an incredibly small laptop, making it perfect for even the tightest spaces. Whether it's a compact desk, an airplane tray table, or in your bag, it fits effortlessly – with room to spare.

Razor-thin – only 12.7mm

At only 12.7 mm thin, the XPS 13 is also our thinnest* XPS yet. It takes up minimal bag space and slips effortlessly into your purse or backpack.

Battery life targeting up to 17 hours* streaming

Enjoy extended battery for full work or school days, so you can focus less on looking for an outlet. A power-saving panel helps make it possible.

Exceptional by design

Built with authentic craftsmanship that makes XPS iconic, the XPS 13 delivers exceptional quality in an ultra-thin design. Its ultra-clean silhouette reflects thoughtful design. As the entry to the XPS family, this laptop sets a new standard for its class—delivering elevated design, durability, and craftsmanship from the very first touch.

Precision crafted

With maniacal focus on the form factor, and exceptional attention to detail, the XPS 13 is designed to look, feel, and wear like a premium product. There are minimal parting lines, only four screws on the base, and slots that double as both thermal intakes and down firing speakers.

Premium materials

This is the same premium CNC construction you've come to expect from XPS. Although it's machined incredibly thin, it is still durable and removes jointed parts and empty space for a solid build quality and tighter gap control.

Modern hues, timeless appeal

Refined and contemporary, the XPS 13 has two color choices that evoke serenity, sophistication and natural elegance. Available in Sky or Storm, customers can choose a carefully crafted shade to complement their individuality.

User touchpoints

A traditional windowed glass touchpad and traditional backlit chiclet keyboard are familiar and easy-to-use. A backlit keyboard ensures effortless typing in low-light or no-light environments. Whether you're on a red-eye flight or working late in a dim room, every key remains visible and accessible.

Immersive, power-saving display

Enjoy a premium viewing experience with a 2.5K touch display that balances true-to-life color and battery saving technology. The InfinityEdge display, pioneered by XPS, maximizes your view within a compact design. Immerse yourself in movies, photos and more while extending your runtime.

2.5K (2560 x 1600)

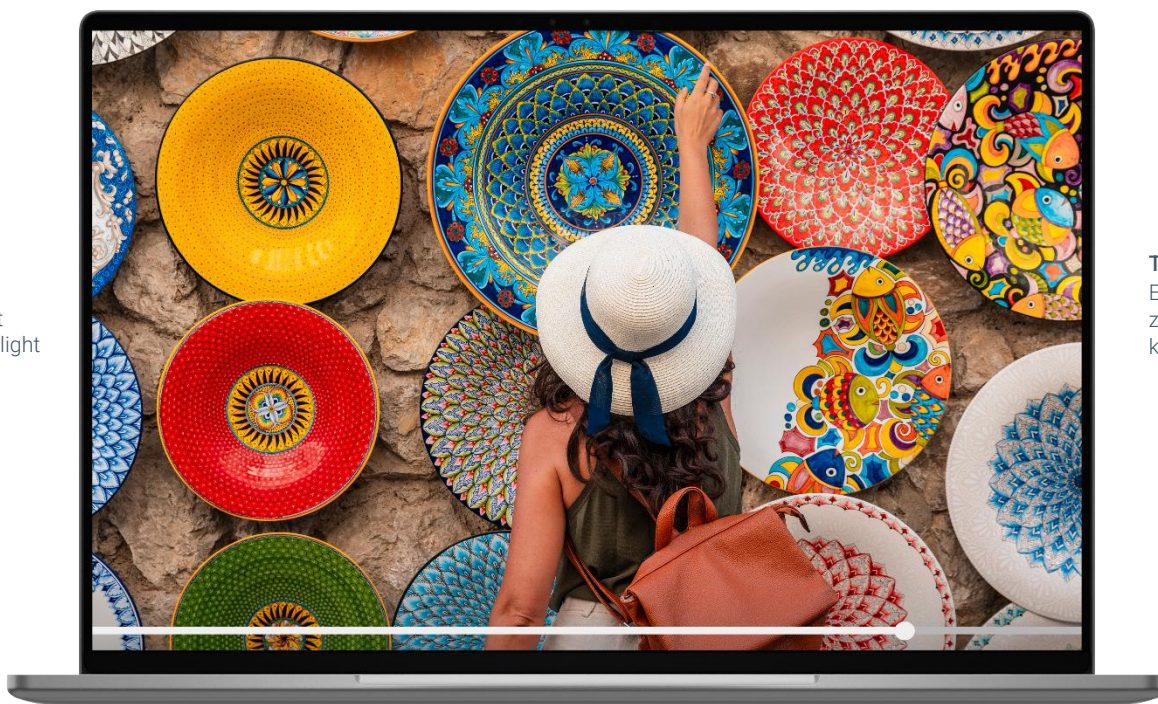

Pixel precise detail on a high-resolution display

100% DCI-P3 color

See every color as the creator intended. A greater range of color for more accuracy than sRGB

500-nit brightness

Easy to see content outside or in bright light

**Touch**

Easily scroll, pinch or zoom without a keyboard or mouse

InfinityEdge

Thin bezels maximize your view in a compact design

30-120Hz

Enjoy ultrasmooth motion and improved battery life with a variable refresh rate of 30-120Hz.

Eyesafe® Technology

Reduces harmful blue light without compromising color

Real laptop performance for your everyday

Fast, smooth and responsive

Series 3 Intel® Core™ processors deliver speed and accelerated performance for daily applications, real laptop performance and long battery life. Work, stream and multitask with ease. Built-in AI quietly helps with the little things.

Exceptional performance on the go

Series 3 Intel® Core™ Ultra processors deliver more performance for content consumption, light creation and productivity plus immersive photo-realistic visuals with Intel® Graphics supporting up to 4Xe cores. XPS delivers the power of local AI. Copilot+ expands what AI can do for you.

Lightning-fast memory

LPDDR5x memory up to 32GB delivers fast data transfer speeds, quick boot time and snappy application launches.

Cool and quiet

Dual fan design actively cools the XPS 13 and keeps it comfortable on your lap.

Detailed configuration options per processor type

Intel® Core™	Intel® Core™ Ultra
8GB, 16GB	16GB, 32GB
512GB SSD, 256GB (post launch)	512GB SSD, 1TB SSD
18 TOPs, AI PC	50 TOPs, Copilot+ PC
2Xe cores	2Xe, 4Xe cores
2x USB-C	2x Thunderbolt™ 4

Not just nice to have, impossible to live without

No light. No problem.

A backlit keyboard ensures effortless typing in low-light or no-light environments. On a red-eye or working late in a dim room? Every key remains visible.

Tap. Swipe. Scroll.

Easily scroll, pinch or zoom without a keyboard or mouse when you are surfing, shopping, working, filtering through photos or listening to music.

Immersive sound.

Quad speakers fire both upward, directing sound toward you, and downward, bouncing off the table for 360-degree spatial sound.

Designed with circularity in mind

Material innovation

XPS 13 is designed with 50% post-consumer recycled plastic in the laptop chassis, 75% post-consumer recycled plastic in the keyboard, 75% recycled aluminum in the top cover and palm rest, 30% recycled aluminum in the bottom cover, 25% low emissions aluminum in the top cover and palm rest, 70% low-emissions aluminum in the bottom cover, and 90% recycled steel in the keyboard plate. It also has a battery made with 50% recycled cobalt.*

Excellence in environmental standards

This PC is certified ENERGY STAR® and registered EPEAT Gold with Climate+. With Climate+ this laptop has met environmental criteria that address climate change and reducing greenhouse gas emissions.*

Packaging with purpose

Ships in packaging made from 100% recycled or renewable materials.

Seamlessly transition from old to new technology

When you're ready to retire your device, we'll help you responsibly and securely do so regardless of brand.

Important details

Thinnest and lightest XPS: Based on Dell internal analysis, May 2026.

Netflix streaming battery benchmark: XPS 13 tested with Intel® Core 5 320 Processor, Intel Graphics, 2.5K LCD, 8GB and 512GB SSD. Testing conducted by Dell labs in May 2026 with display brightness set to 250 nits and wireless enabled. Battery configuration set to Standard and Intelligent Battery Extender disabled. Based on streaming Netflix Streaming 4k Video Playback. Actual battery life may be significantly less than the test results and varies depending on product configuration and use, software, usage, operating conditions, power management settings and other factors. Maximum battery life will decrease with time. The stated Watt Hour (Whr) is not an indication of battery life.

Memory: Graphics & System Memory: GB means 1 billion bytes and TB equals 1 trillion bytes; significant system memory may be used to support graphics, depending on system memory size and other factors.

Hard Drives: GB means 1 billion bytes and TB equals 1 trillion bytes; actual capacity varies with preloaded material and operating environment and will be less.

The **Bluetooth wireless version** may vary depending on the operating system that is installed on your computer.

Weights vary depending on configuration and manufacturing variability.

Wi-Fi 7 Wi-Fi 7 certified products will roll out in accordance with the Wi-Fi Alliance certification schedule throughout 2024. Wi-Fi 7 requires the latest Wi-Fi Alliance certification, Windows HLL certified device driver, hardware update, supported Windows OS version and compatible router. Wi-Fi 7 connectivity with Windows 11 is limited and will leverage prior generation of Wi-Fi until drivers are available and hardware adoption increases. Ubuntu OS will not support Wi-Fi 7 and will operate on Wi-Fi 6/6E speeds when configured for Wi-Fi 7. Router requires a separate purchase. Wi-Fi 7 connectivity is only available in select locations <https://www.wi-fi.org/countries-enabling-wi-fi-in-6-ghz-wi-fi-6e>. Check availability with your service provider. The Bluetooth wireless card version may vary depending on the operating system that is installed on your computer.

Recycled materials: Based on internal analysis, February 2026. 40% post-consumer recycled plastic in the bezel, 30% post-consumer recycled plastic in the speaker, 90% recycled magnesium in the palm rest, 75% recycled aluminum in the top and bottom cover, 25% low emissions aluminum in the top cover, bottom cover and palm rest, 90% recycled steel in the keycaps, 10% recycled glass in the display, and 50% recycled cobalt in the battery (52 Whr).

Packaging: Contains up to 68.7% recycled content and 31.3% renewable content in the form of sustainability forested materials. Excludes optional items added to order and included in box.

Environmental standards: Based on internal analysis, February 2026. ENERGY STAR certifications may vary by configuration. See www.energystar.gov/productfinder/ for certification status. Based on internal analysis, February 2026. Based on EPEAT Climate + Designations. EPEAT registered where applicable. EPEAT registration may vary by country and configuration. See www.epeat.net for registration status by country.
